Discover the vast world around you

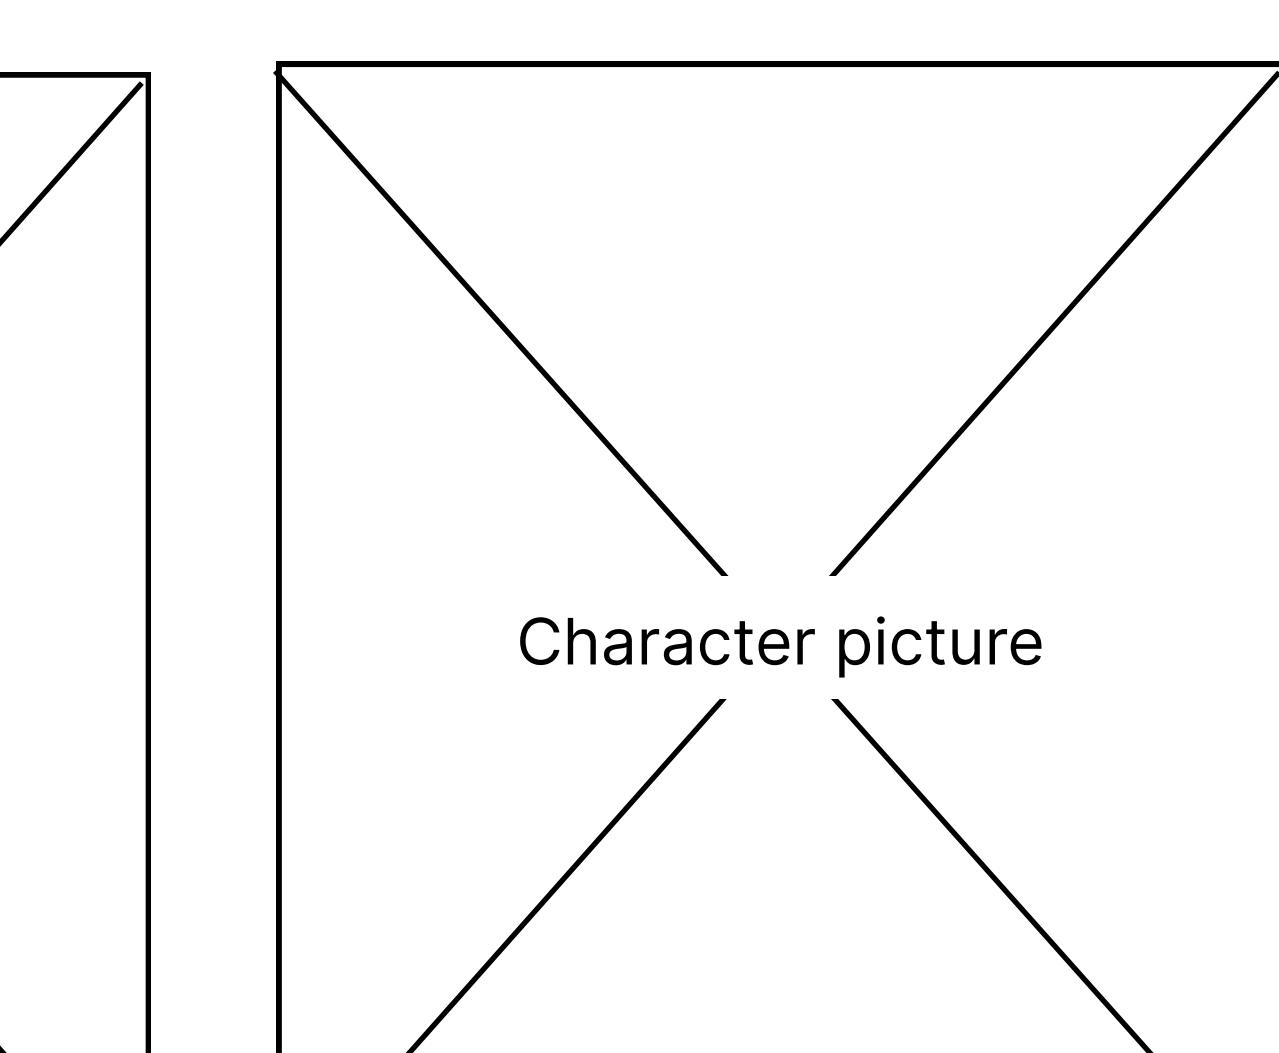

Game picture

Explore the landscape of Hyrule any way you like. Climb up towers and mountain peaks in search of new destinations, then set your own path and plunge into the wilderness. With this much real estate to explore, Link will need some help in his travels. Luckily, there are plenty of transportation options to unlock. Link can cover a lot of ground quickly on horseback, navigate the waters of Hyrule on a raft, or hit the slopes and surf down a mountain on his shield. And the sky's the limit when Links soars through the sky with his paraglider.

Fight for your Kingdom

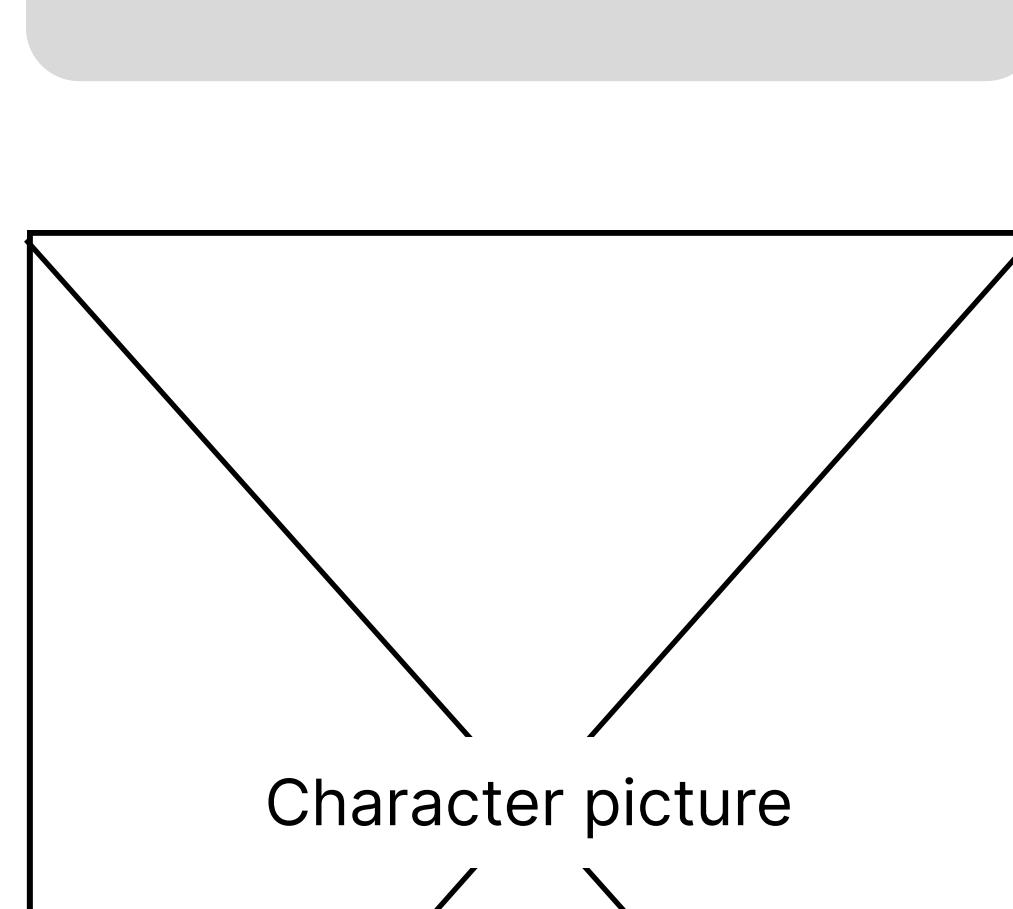

When Link first wakes up, he's unarmed and defenseless. Relying on his wits and resourcefulness, though, he can acquire over 180 different weapons to use in combat. These items will wear out over time, though, so he must always be on the lookout for more. There's more to fighting than just weapons, of course. Link will also have to learn a variety of different attacks—like high-flying bow shots and making use of explosives—in order to prevail.
